San Francisco, with 62,133 pounds of
sugar.

• • •

RACING SEASON
DRAWING NEAR

Horses are Being Brought up
From Hilo and Find the
Track Very Bad.

Tom Ryder, the pacer, will be down
this way in a week or so to be matched
against Silas S., and with him will
come McManus' Ayres P., also on the
lookout for trouble. Both horses are
at present in Hilo.

Local horsemen are asking what is
the matter with the Jockey Club.
Nothing has been heard of that august
institution since June last.

The racing season is drawing on
space and no preparations whatever
are being made for it. The track is in
bad shape and the paddock is practi-
cally impassable.

Kamehameha Day has from time
immemorial been observed as Hawaii's
great race day, and the interest in it
is shared by rich and poor, haole and
native; it is Hawaii's Derby Day. If
this year's equine celebration is to be
come up to that of former years an
extra move must be made.

There are more horses here than
ever before and more people anxious
for good racing. Despite these facts,
however, the leading racing institution
remains dormant, and trainers, owners
and the public generally are demand-
ing to know why.

If a meeting be not called in the
near future it looks as if the June
racing festival would go off if the board
be gotten up at such short notice as
to result in an exhibition of equine
antics which will disgust a much-en-
during public and put an effective
extinguisher on the somewhat Ha-
waiian Jockey Club and all its works.

Notice to Shipmasters,

8. Branch Hydrographic Office,
San Francisco, Cal.

By communicating with the Branch Hy-
drographic Office in San Francisco, es-
pects of vessels who will co-operate with
the Hydrographic Office by recording the
hydrological observations suggested by
the office can be forwarded to them at
my desired port, and free of expense.
The monthly pilot charts of the North Pacific
Ocean, and the latest information regard-
ing the dangers to navigation in the wa-
ters which they frequent.

Mariners are requested to report to the
office dangers discovered, or any other
information which can be utilized for
charting charts of sailing directions, or in
the publication of the pilot charts of the
North Pacific.

G. G. CALKINS,
Last-Stringer, U. S. N. S. Charge.
